

New Primary Nurse Planner Orientation

Criteria for successful completion:
Commensurate with Participation
Completion of an Evaluation Form

The Ohio Nurses Association is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.
(OBN-001-91)

If you could be anywhere on earth right now where would that be?

Welcome to your new role

Today we will discuss:

- ONA Process/roles/terms
- ANCC criteria
- NARS
- Next Steps

**Take a minute to think about the Current State of your role
as PNP vs. Desired State**

**What thoughts come
to mind?**

ONA Process Requirements

**Notification of change
in personnel within 30
days.**

**Progress reports
completed as
determined by ONA.**

**Yearly survey submitted by
due date with NARS
attestation.**

**Provider Application
with supporting activity
documentation every 3
years.**

ANCC Criteria (2015 with Streamlining and Revisions)

Processes for each of the following are led by the Primary Nurse Planner. An application self-study is completed every three years that includes a narrative and example for each.

Education Design Process

1. Identify professional practice gap
2. Underlying educational need
3. Measure end of activity outcomes
4. Identify relevant financial relationships
5. Assure best available evidence
6. Engage Learners
7. Summative evaluation

Structural Capacity

1. Commitment
2. Accountability
3. Leadership

Quality Outcomes

1. Assessing Provider Unit Effectiveness
2. Measurable Outcome of Provider Unit Operations
3. Measurable Outcome of Nursing Professional Development Impact

Structural Capacity

Commitment- How do you know your learners needs and how are you meeting them as the PNP?

Accountability-What is your process orientation and adherence of criteria?

Leadership- How do you lead others outside of the provider unit to know ANCC criteria for activity planning?

Education Design Process /Activity Planning

Experience/Confidence

- How experienced are you as a Nurse Planner?
- How many activities have you planned in the last 6 months?

Myth vs. Reality

- Activities must be at least 30 minutes?
- Every activity needs 2 planning committee members.
- Inservice education may not award contact hours.
- The Registered Nurse must be part of the target audience.
- Anyone who completes the criteria for successful completion may be awarded a certificate.

Developing an Educational Activity

Title of your planned activity:

1. What is the practice gap that you have identified?
2. What evidence supports the existence of this problem or creates this opportunity for improvement?
3. What stakeholders need to be engaged?
4. What is the target audience for the activity?
5. What is the desired outcome for the activity?

6. How will you measure whether learners achieved this outcome?

7. How will you design the activity to increase the likelihood of learners achieving the desired outcome?

8, How will you ensure content integrity?

9How will learners be actively engaged during the activity?

10. What strategies will you use for evaluation – formative? Summative?

11. How will you know whether the activity made a difference to the nurse or to patients?

What are SMART goals?

Specific (simple, sensible, significant).

Measurable (meaningful, motivating).

Achievable (agreed, attainable).

Relevant (reasonable, realistic and resourced, results-based).

Time bound (time-based, time limited, time/cost limited, timely, time-sensitive).

Quality Outcomes

Q02a

- Provider unit operations
- Internal
- Over the past 12 months
- Measurable!

Q03a

- Nursing professional development
- Larger Influence of Provider Unit
- Over the past 12 months
- Measurable!

SMART or not?

- The Provider Unit will deliver education more effectively over the next year.

Specific? No.

Measurable? No.

Achievable? Yes, potentially.

Relevant? Yes.

Time-Sensitive? Yes.

Quality Outcomes

Q03a

- At least half of Nurse Planners in the Provider Unit will become certified in NPD by December 2021.
