# Care Moves. Roll With it.

We believe that clinicians are the key to happy, healthy patients and our goal is to help make their job easier. **We build durable, ergonomic and stylish technology workstations that give clinicians the tools they need to help patients heal.**

## Dependable, Simple, Workstations on Wheels

Altus' non-powered carts are the cornerstone of our mobile workstation family. Our H-class non-powered carts deliver point of care technology for caregivers in a simple yet seamless way. With our superior adjustability and mobility, effortlessly move through your daily tasks with our lightweight and ergonomic carts.

### Clinician-Focused

Happy clinicians make happy patients! Our non-powered workstation adjusts to each unique clinician and technology requirement to provide the comfort that is needed in their daily tasks.

### Dependable, yet Stylish

- Ships fully assembled: making deployment faster and easier
- Engineered with solid yet lightweight die cast aluminum for years of constant use
- Over the last two years, less than 0.5% of our carts required service fixes and many of our carts are still in service after 10+ years
- Full portfolio of warranty and service options to put time back in your day
- Smart designs to work with whatever technology you prefer

**“Our organization has purchased and deployed more than 400 Altus carts over the span of 7 years. As a testament to their durability, all of these carts remain in production today! Product and service is fantastic and continues to exceeded our expectations.”**

*- Troy Durepo, Business Systems Analyst,  
Project Coordinator, Lee Health*

# The Details

## Highly Mobile:

- Four caster options to fit any application:
  - Standard single-wheel rollerblade casters for optimal maneuverability
  - Single-wheel shrouded casters for use in a clinical environment
  - Tente heavy duty casters for maximum mobility over thresholds
  - Runner casters for maneuverability in an office setting
- Small footprint for ease of movement and the ability to squeeze into tight places
- Compact worksurfaces to maximize available work surface as well as technology

## Ergonomic:

- Easily move from sitting to standing with Altus' proprietary Ascend lift technology
- Offers 18" of effortless sit-to-stand height adjustment.
- Tilt and adjust monitors to fit each clinician
